

METCHEM 6020
Biostable
Very Heavy- Duty Synthetic

Product Line

Metalloid Corporation manufactures a complete line of industrial metal working fluids and cleaners. Metalloid's product line includes but is not limited to Machining and Grinding Coolants, Stamping and Forming Fluids, EDM Fluids, Corrosion Inhibitors, Swiss Cutting Oils and Aqueous Cleaners.

Product Description

METCHEM 6020 is a *bio-stable* synthetic machining and grinding coolant for any alloy except for magnesium. **METCHEM 6020** is a neutral pH premium synthetic, designed to be more acceptable by workers. This coolant provides exceptional fine settling, rust protection, visibility, and cleanliness. **METCHEM 6020** can be used in individual sumps and central systems. **METCHEM 6020** is **designed specifically for demineralized water** and does not contain: chlorinated EP additives, sulfur, mineral oil, secondary amines, boron, nitrites, or formaldehyde releasing agents.

Benefits

- Exceptional rust protection
- Neutral pH for reduced skin irritation
- Low foam profile
- Exceptional surface finishes
- Outstanding fine settling and tramp oil rejection
- Clear fluid that resists color change to ensure good visibility

Specifications

Specific Gravity @70⁰F..... 1.066
Refractometer Factor..... 1.35
pH @ 1:10..... 7.8
Appearance..... Clear Colorless

Packaging

METCHEM 6020 is available in 5-Gallon Pails, 55-Gallon Drums or 330-Gallon Totes.

The Metalloid Partnership Advantage

We believe the statements, technical information and recommendations contained herein are reliable, but they are given without warranty or guarantee of any kind, expressed or implied, and we assume no responsibility for loss, damage, or expense, direct or consequential, arising out of their use.

No one understands metalworking fluids better than Metalloid, so no one else can bring you advanced technology that works on the issues that matter to you. Get the whole story by calling Metalloid at **800.686.3201**.
